APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of the Carson River as heretofore granted under Permit 49179 is issued subject to the terms and conditions imposed in said Permit 49179 and with the understanding that no other rights on the source will be affected by the change proposed herein. A substantial headgate and measuring device must be installed and maintained to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water under this proposed change at any and all times.

This permit is issued with the condition that the diversion from either one or both of the points of diversion shall not exceed the amount allowed by the decree. This permit is for a supplementary point of diversion only.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1071.54 acre-feet as decreed cubic feet per second, but not to exceed a decreed duty of 4.5 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before.....September 24, 1988

Proof of completion of work shall be filed before.....October 24, 1988

Application of water to beneficial use shall be made on or before.....September 24, 1989
